Timmy Global Health Overview

Timmy Global Health is an Indianapolis-based nonprofit that seeks to expand access to health care while empowering students and volunteers to tackle today's most pressing global health challenges. In collaboration with our international and US partners, we facilitate medical service trips and channel financial, medical, and human resources to community-based projects in the countries where we serve.

TGH has distinct elements that define its principles of engagement and set it apart in the field of short-term medical service work abroad: ensuring continuity of care; long-term relationships with the communities it serves; an unwavering commitment to high-quality clinical care; respect for patients, partners, and government policies in the countries where it works; and emphasis on cultural humility and learning among its volunteers. TGH is currently evolving certain aspects of its programming to ensure that its work contributes to long-term, sustainable improvements in health care and health equity; using a model of recurring medical service trips and global health education as anchors.

At Timmy, we believe that all people have a basic human right to access quality healthcare and that everyone, regardless of age or career path, plays a role in fighting for health equity. In the words of Timmy's founder, Dr. Chuck Dietzen, "Not all of us were born to be doctors and nurses, but we were all born to be healers."
